

Technical Memorandum

TO: Physicians, Staff

From: Arthur J. Loerzel, MD, Medical Director

Date: March 6, 2019

Subject: **DLS Guam New Chemistry Analyzer
beginning March 7, 2019**

Diagnostic Laboratory Services, Inc. continues to look for ways to improve the quality of its laboratory services. DLS Guam lab is therefore pleased to announce the implementation of a new chemistry / immunoassay instrumentation, the *Roche 6000 Analyzer*. Please be informed that the reference ranges will change.

DLS is also pleased to offer the following tests that will be performed in-house on Guam.

CEA, Ferritin, Lithium, Valproic Acid

It is our expectation that the new system will further improve the quality and reliability of laboratory testing results, reduce turn-around time, and further enhance services to our clients and the patient population on Guam.

Should you have any questions or concerns, please contact DLS Client Services at-1-800-555-2357 or DLS Guam at 671-646-5770.

Thank you for your continued patience and understanding.

“Great Science – Great People”
